5. §99 Peace and Good Order, Article II Noise

Is replaced as follows:

§ 99-7 PURPOSE

A. The Village Board finds that:

- 1) Unnecessary noise degrades the environment of the Village to a degree which:
 - a. Is harmful and detrimental to the health, welfare and safety of its inhabitants.
 - b. Interferes with the comfortable enjoyment of life, property and recreation and with the conduct and operation of business and industry.
 - c. Causes nuisances.
- 2) No one has any right to create unnecessary noise.
- 3) Effective control and elimination of unnecessary noise is essential to the furtherance of the health and welfare of the Village's inhabitants and to the conduct of the normal pursuits of life, recreation, commerce and industrial activity.

B. The Village Board recognizes that some inhabitants of the Village of Canajoharie must sleep during the daylight hours in order that they may be employed in the nighttime and that infants, invalids and illness require that unnecessary noise be eliminated; and the Board is

mindful of the fact that a busy Village creates sufficient noise by its own activity which cannot be eliminated. Therefore, it is in the public interest that unnecessary noise, especially unnecessary recreational noise, be eliminated within the corporate limits.

- C. It shall be an expression of the legislative intent of this Board that the proliferation of portable radios and tape players being played outside of dwellings, upon the public way, on public sidewalks and in parks and plaza areas and on porches and steps of buildings be discouraged. Individuals that find it necessary to operate these devices out of doors at loud levels should operate them with headsets or headphones attached so that the persons who desire to listen to these devices may enjoy them in comfort and that they not be permitted to create a nuisance in the neighborhood. It is also an expression of the legislative intent of this Board that commercial establishments which provide live entertainment or jukebox entertainment or entertainment through some sound amplification system be discouraged from having such entertainment audible outside of said premises and on the public ways and streets and be specifically discouraged from loud or noisy entertainment being conducted with their doors open to the public way, unless properly permitted.
- D. It shall also be an expression of the legislative intent of this Board to discourage the use of any horn or signaling device on any automobile, motorcycle or other vehicle, except as a danger warning, especially to discourage the use of a vehicle horn in closely settled neighborhoods to signal a resident to come down or out of a building, except in a situation where the driver of the vehicle, due to disability, is incapable of leaving the vehicle to go to the door of the residence to be addressed.

§ 99-8 PROHIBITED ACTS; EXCEPTIONS; PERMITS

- A. It shall be unlawful for any person within the Village of Canajoharie to make, continue or cause to be made or continued any loud, unnecessary or unusual noise which either annoys, disturbs or endangers the comfort, repose, health, peace or safety of others within the limits of the Village.

- 2) The construction or repairing of buildings. The creation of noise associated with an excavation, demolition, alteration or repair of any building within the Village, other than between the hours of 7:00 a.m. and 9:00 p.m., except in the case of urgent necessity or the interest of public health and safety, and then only with a permit from the Code Enforcement Officer, which permit may be renewed for periods of three days while the emergency continues.
- 3) Loudspeakers, amplifiers, paging systems, portable radios and portable tape players; sound on the streets. The playing, using or operating or permitting to be played, used or operated of any radio receiver, phonograph, loudspeakers, sound amplifier or other machine or device for the producing or reproducing of any sound which is cast upon the public streets, sidewalks, parks, plaza areas or any public areas of the Village. Permits for the operation of these devices may be obtained for the conduct of any approved event or celebration. Practice sessions by school bands or loudspeakers used at organizational, athletic or scholastic events are exempt from the operation of this chapter.
- 4) Radios and phonographs: use on private property. Playing, using, operating or permitting to be played, used or operated any radio receiving set, phonograph, tape player, television receiving set or other machine or device for the producing or reproducing of sound is prohibited if such sound is loud enough to be clearly heard 25 feet from the boundary of the property on which the sound is produced or reproduced.

- 5) Yelling and shouting. Yelling, shouting, loudly conversing, hooting or singing on the public streets of the Village at any time or place so as to annoy the peace, quiet, comfort or repose of persons in any office or in any dwelling or any other type of residence or of persons within the vicinity, within the limits of the Village.
