Local Law No. _____ 2 _____ of the year 20²³ _____

A local law amending Chapter 147 entitled "Zoning" of the Code of the Town of Liberty, Sullivan
(Insert Title)
County, New York.

Be it enacted by the _____ Town Board _____ of the
(Name of Legislative Body)

County City Town Village

(Select one.)

of _____ Liberty _____ as follows: _____

(If additional space is needed, attach pages the same size as this sheet, and number each.)

Section 1. Legislative Intent.

The Town of Liberty enacts this local law pursuant to Section 10 of the Municipal Home Rule Law and Article 16 of the Town Law to provide for the orderly development of the Town and to protect the health safety and welfare of its residents. The amendments provide for, in part, the exercise of religious freedom of persons, places of worship, religious schools, and other religious assemblies and institutions, reflecting the intent of the Religious Land Use and Institutionalized Persons Act (RLUIPA), a federal civil rights law.

This local law amends the definition of Private Schools; adds Restaurants and Taverns as Special Uses in the Service Commercial District; and incorporates provisions for Places of Worship and Private Schools. Places of Worship are added as a Special Use to the Agricultural/ Conservation (AC), Rural Development (RD), Low-Density Residential (R1), High-Density Residential (R2), Industrial Commercial (IC), and Resort Hotel (RH) Districts. Private Schools are added as a Special Use to the Agricultural/ Conservation (AC), Downtown Commercial Core (DCC) Rural Development (RD), Low-Density Residential (R1), High-Density Residential (R2), Industrial Commercial (IC), Resort Hotel (RH), Service Commercial (SC) Districts. These changes are incorporated into the Schedule of District Regulations (referenced in Article IV, §147-8 and attached to the Zoning Law). A new subsection for Places of Worship and Private Schools has been incorporated within Article VI, Supplemental Use Regulations Pertaining to Certain Uses.

This local law also develops a new set of development standards that address certain special uses and incorporates these standards into the Schedule of District Regulations. The standards, designated as “B”, are incorporated within the AC, RD, R1, and R2 Districts. These standards include amendments to the setbacks, and lot-size/ area, width, and depth. Standards designated as “A” are the pre-existing standards and therefore remain unchanged.

Section 2. Amendment of Article II, § 147-4. Definitions

The existing definition of SCHOOL, PRIVATE is hereby replaced with the following definition:

“An institution, not owned by a public agency, which offers to its students formal education and is chartered or certified by the Board of Regents of the State of New York.”

Section 3. Amendment of Article VI

A new subsection G is hereby added to Article VI, §147-15, as follows:

“G. Places of Worship and Private Schools

(1) Applicability. In the review of special use permit and site plan review applications for places of worship or private schools, or the expansion of thereof, the Planning Board shall ensure, in addition to the requirements of Article VIII and the Schedule of District Regulations of this chapter, that the following criteria, in Subsection (3)(a) through (g), are met.

(a) Access and traffic.

[1] The property shall be served by two points of vehicular access to a public highway to ensure access by emergency vehicles.

[2] There shall be safe and adequate management of vehicular and pedestrian traffic entering and exiting the site, as well as within the site, including particular safeguards covering episodic periods of drop-off and pick-up of children and/or visitors. Buses shall be boarded and off-boarded within the site and adequate space shall be provided. In the event of unforeseen circumstances that result in the need for boarding or off-boarding on a public road, the place of worship or private school must provide traffic control (and crossing guards if on opposite side of road from the place of worship or private school) to ensure traffic and pedestrian safety throughout the period involving a public road.

(b) Water supply shall be from a public municipal facility, if available to serve the use. If connected to public water supply, the Water Department supervisor must submit a letter to the Planning Board Chairman indicating acceptance of a defined quantity of daily use. If the water supply is from a private source, the property owner and/or applicant must provide adequate Department of Health documentation of approval that the water supply is potable and of adequate volume. Any deficiencies in the potability or volume of a private water supply must be addressed immediately by the owner or designated agent. All water supply systems must meet the requirements of Chapter 144, Water, of the Town of Liberty Code, as applicable.

(c) Wastewater collection and treatment shall be served by a public municipal facility, if available. If the wastewater collection and treatment shall be from a private source, the property owner and/or applicant must provide certification acceptable to the Town that the sewage disposal system is adequate for the proposed use. Any deficiencies in wastewater collection and management must be addressed immediately by the owner or designated agent. All wastewater collection and treatment systems must meet the requirements of Chapter 121, Sewers and Sewage, of the Town of Liberty Code, as applicable.

[d] Regulatory compliance. The applicant for the place of worship or private school shall obtain, or agree to obtain, as a condition of site plan review and special use approval, all regulatory approvals required by federal, state, or local agencies including but not limited to the NYS Department of Health, the NYS Department of Environmental Conservation, the Town of Liberty Highway Department, and the NYS Department of Transportation. The place of worship or private school shall be in conformance with the requirements of the NYS Uniform Fire Prevention and Building Code.

(e) Site capacity. Taking into consideration the adequacy of potable water, wastewater disposal facilities, traffic circulation and emergency access, Uniform Fire Prevention and Building Code compliance, and other criteria that address public health, safety, and welfare of residents, worshippers, and students, the Planning Board may place limits on the overall number of buildings in order to accommodate the use and avoid adverse impacts on the environment, the district, and the community. Any such limitations placed

by the Planning Board shall be accompanied by a supporting statement of findings. Prospective applicants for places of worship or private schools are encouraged to meet with the code enforcement officer, the planning board, and other local officials to help determine if the capacity of the site is suitable to accommodate the proposed project, including any future expansion plans.

(f) Garbage disposal. Adequate plans shall be made for the regular collection and disposal of garbage, rubbish and solid wastes generated from within the property(ies). Adequate space of access for sanitation vehicles must be provided. Garbage collected at individual buildings must be maintained in proper secured receptacles. There shall be no on-lot exposed garbage, junk, or other wastes.

(g) Noise. All activities on the property(ies) shall comply with Chapter 107, Noise, of the Town of Liberty Code.”

Section 3. Amendment of Schedule of District Regulations

The Schedule of District Regulations incorporated by reference in §147-8 and attached to the Zoning Law is hereby repealed in its entirety and replaced as follows (see following pages):
