The regulations are designed to permit the maximum legibility and effectiveness of signs while preventing their over-concentration, improper placement, and excess height, bulk, and area.

In general, it is intended that off-site advertising signs of a general commercial nature be prohibited in areas where commercial activities are prohibited and that signs in less restrictive business and industrial areas be regulated to the extent necessary to protect the character of the surrounding area and to conserve property values. 6. If a legally nonconforming sign lists more than one (1) business, new businesses may be added without affecting the nonconforming status of the sign. However, the sign may not be altered in any way that extends the sign's nonconformity in any manner.

§213-98 Permits

Unless otherwise provided by this Article, all signs shall require permits. However, no permit is required for the maintenance of a sign or for a change of copy on a legally conforming painted, printed or changeable copy sign. For the purposes of this section, "maintenance" shall include any repainting of a sign that does not otherwise change its message or appearance.
