LOCAL LAW FILING

TOWN OF STILLWATER  
LOCAL LAW NO. 3 OF 2023

1. Purpose: The purpose of this Local Law is to amend Town Code Chapter 176, § 176-23  
“Pedestrianways”
2. The amendments are indicated below in underlined text.

§176-23

- A. Sidewalks on collector roads. All streets designated as collector roads shall have, at a minimum, a five-foot wide sidewalk on both sides of the street. All such sidewalks shall be so placed that there will be a distance of three feet between the sidewalk and the street paving and a distance of four feet between the inner edge of the sidewalk and the right-of-way line. Planting of street trees will be permitted in the space between the sidewalk and the right-of-way line.
- B. Sidewalks on local streets. All local streets shall be provided with a sidewalk on one or both sides of the street, at the discretion of the planning board. Such sidewalks shall be located as follows:
  1. When a sidewalk is to be provided along only one side of a local street, the street paving shall be offset from the right-of-way center line by eight feet. The sidewalk shall be five feet in width and so placed that there will be a distance of three feet between the sidewalk and the street paving. Planting of street trees will be permitted in the space between the sidewalk and the right-of-way line only.
  2. When sidewalks are to be constructed along both sides of a local street, the street paving shall be centered within the right-of-way. Each sidewalk shall be five feet in width and so placed that there will be a distance of three feet between the sidewalk and the street paving. Planting of street trees will be permitted in the space between the sidewalk and the right-of-way line only.
- C. Community Benefit in Lieu of Installation. The Planning Board will have the option to, at its discretion, accept a monetary community benefit in lieu of requiring the installation of sidewalks as outlined in B (1) and B (2) of this Section. Funds collected can be used to help fund a town-wide pathway linkage study in the future or for placement of pedestrian ways in areas already designated by the Town as in need. This monetary contribution must be in an amount of no less than the amount it would cost the Town to install the sidewalks at the project location in order to meet current code specifications based on prevailing wages and other municipal requirements.
