Whereas, the City of Watertown requires Natural Landscaping Permits for native plantings; and,

Whereas, native plantings with deep roots are often used in for stabilization and infiltration in stormwater management practices, and

Whereas, the Public Works Commission reviewed the proposed amendments to Chapter 356 at its February 28, 2023 meeting and recommends adoption of said amendments.

THE COMMON COUNCIL OF THE CITY OF WATERTOWN DOES ORDAIN AS FOLLOWS:

SECTION 1. Chapter 356 is hereby amended as follows:

Chapter 356

Article I

Natural Landscape Permit

[Adopted by Ord. No. 93-54 (§§ 9.09 and 9.20 of the former City Code)]

§ 356-1 Definitions.

As used in this article, the following terms shall have the meanings indicated:

INVASIVE SPECIES

Nonindigenous species whose introduction causes or is likely to cause economic or environmental harm or harm to human health.

NATURAL LANDSCAPE

Includes common species of grass and wildflowers native to Wisconsin and/or ornamental plantings which are designed and purposely cultivated to exceed eight inches in height. Specifically excluded in natural landscapes are the noxious grasses and weeds identified in this article.

[Amended by Ord. No. 94-35]

NATURAL LANDSCAPE MANAGEMENT PLAN

A written plan relating to the management and maintenance of a landscape which meets the following requirements:

A. Street address or legal description of the property where the proposed natural landscape is

being requested.

- B. A statement of intent and purpose for the landscape.
- C. A detailed description of the types of plants and plant succession involved.
- D. Specific management and maintenance techniques to be employed.

RAIN GARDEN

A storm water management practice consisting of a shallow depression planted with a dense cover of vegetation, designed to capture storm water runoff from a small drainage area and infiltrate it into the underlying soil.

STORMWATER BEST MANAGEMENT PRACTICE (BMP)

Structural or non-structural measures, practices, techniques or devices employed to avoid or minimize soil, sediment or pollutants carried by stormwater runoff to waters of the state. Examples include wet or dry detention ponds, infiltration basins, biofilters, buffers, and constructed wetlands.

SHORELINE / STREAMBANK

The sloped areas alongside streams, creeks and rivers that connect the stream to its floodplain.

WETLANDS

An area where water is at, near or above the land surface long enough to be capable of supporting aquatic or hydrophytic vegetation, and which has soils indicative of wet conditions.

WETLAND DELINEATION

A precise wetland boundary survey that meets federal and state regulations and is completed by a wetland professional.

WETLAND DETERMINATION

A decision regarding whether or not an area is a wetland, including identification of wetland type and size.

§ 356-2 Plan and permit required; restrictions.

A. A.—The growth of natural landscapes in excess of eight inches in height shall be prohibited within the City, unless a natural landscape management plan is approved and a permit is issued by the City as set forth in this article except as provided under Subsection a. [Amended by Ord. No. 94-35]

a. Exemptions. The following natural landscapes that are being routinely maintained throughout the growing season are exempt from requiring a permit:

- i. Approved stormwater best management practice (BMP);
- ii. Rain Gardens designed to capture and infiltrate rooftop runoff following the WDNR Technical Standard 1009
- iii. Designated wetlands, as shown on the Wisconsin Department of Natural Resources Surface Water Data Viewer Mapped Wetlands layer or in a wetland delineation report or wetland determination compiled by a qualified professional.
- iv. Shoreline/streambank areas not more than 15 feet from the Ordinary High Water Mark (OHWM) or the top of slope, whichever is greater.
- v. An area less than 50 percent of the surface area of the property not otherwise occupied by buildings, structures, or improvements and meets the requirements of 356-B., C. and D.

- B. Proposed landscaping is to be confined to property owned by the applicant according to current City Assessor's records.
- C. Natural landscaping on any City-owned property within any street right-of-way is strictly prohibited unless approved by Director of Public Works/City Engineer – This shall include the property between the sidewalk and street and not less than 10 feet adjacent to the street where there is no sidewalk.
- D. Natural landscapes shall not be permitted within three feet of the abutting property unless waived in writing by the abutting property owner on the side or sides affected. Such waiver shall be affixed to the landscape management plan.
- E. The property owner shall submit to the Weed Commissioner a drawing, plot plan and/or survey which will show the location of the natural landscape area on the applicant's property. **[Amended by Ord. No. 05-29]**
- F. All property owners who currently have natural landscapes must file for a permit and submit a plan to be covered by this article.
- G. Natural landscapes may constitute a fire or safety hazard, due to weather conditions or other conditions. ~~The Street Department, Parks, Recreation and Forestry Department~~ the Weed Commissioner may order natural landscapes cut due to such conditions. As a condition of receiving approval of the natural landscape permit, the property owner shall be required to cut the natural landscape within three days upon receiving a written letter from the City of Watertown's Weed Commissioner.
