LOCAL LAW NUMBER 2 OF 2022 OF THE VILLAGE OF WEST CARTHAGE

A Local Law Adding Chapter 61 to the Code of the Village of West Carthage Entitled "Public Nuisance Law"

Be it enacted by the Board of Trustees of the Village of West Carthage (the "Village Board") as follows:

Section 1. Authority

This local law is enacted pursuant to the provisions of the New York Village Law and the New York Municipal Home Rule Law.

Section 2. Purpose

The purpose of this local law is to regulate the operation of establishments and the use of property that are repeatedly in violation of certain provisions of the New York Penal Law and the Code of the Village of West Carthage (the "Code"). The repeated occurrence of nuisances at some properties substantially and seriously damages property values and the health, safety and welfare of the entire community. The purpose of this Public Nuisance Ordinance is to establish a means to remedy these nuisances, which shall be in addition to the use of procedures and remedies available under other laws.

Section 3. Amendment to Code

See the attached proposed new Chapter 61 to the Code entitled "Public Nuisance Law".

Section 4. State Environmental Quality Review Act (SEQRA)

The Village Board has considered the provisions of Article 8 of the Environmental Conservation Law ("SEQRA") and the regulations adopted thereunder at 6 NYCRR Part 617 and finds this Local Law will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared.

Section 5. Severability

If a court determines that any clause, sentence, paragraph, subdivision, or part of this local law or the application thereof to any person, firm or corporation, or circumstance is invalid or unconstitutional, the court's order or judgment shall not affect, impair, or invalidate the remainder of this local law, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, or part of this local law or in its application to the person, individual, firm or corporation or circumstance, directly involved in the controversy in which such judgment or order shall be rendered.

Section 6. Effective date

This local law shall take effect immediately upon filing with the Secretary of State.

§ 61-2 Notice of Nuisance Points

- A. Any time one of the above-identified violations occurs, the Village Police Department, or another Village employee as may be designated by the Chief of Police, shall, within fifteen business days from the date of the violation, send a Notice of Nuisance Points to the owner of the tax parcel.
- B. The Notice of Nuisance Points shall be sent by first class mail and shall identify the violation and the number of points assessed against the property. In calculating business days, weekends shall not be counted, nor shall any of the following holidays: New Year's Day; Martin Luther King Jr. Day; Presidents' Day; Good Friday; Memorial Day; Independence Day; Labor Day; Columbus Day; Veterans' Day; Thanksgiving Day; and Christmas Day.

- C. The Notice of Nuisance Points shall set forth the address where the nuisance activity took place, the specific violation, the date and time of the violation and the number of points being assessed as a result of the violation.
- D. If, at the time the Notice of Nuisance Points is sent, the total number of nuisance points then accrued is less than that which would be deemed a Public Nuisance, the Notice of Nuisance Points shall inform the property owner that if the conduct giving rise to this violation is not abated and recurs, the at issue property may be deemed a Public Nuisance, which could result in the closure of the business located on that property. The Notice of Nuisance Points must also inform the property owner that he or she may apply for a Waiver of Nuisance Points.

§ 61-3 Waiver of Nuisance Points

- A. An owner of property may apply for a Waiver of Nuisance Points by submitting a written request addressed to the Mayor of the Village of West Carthage by first class mail post-marked no later than ten business days after the date of the Notice of Nuisance Points. The written request must also include a detailed abatement plan describing what steps the property owner shall take in order to prevent similar violations in the future.
- B. Upon receipt of a request for a waiver, the Mayor of the Village of West Carthage shall notify the property owner that he or she will be given an opportunity to meet with the Village Board of Trustees at either a regularly scheduled meeting or a special meeting to be scheduled by the Mayor of the Village of West Carthage.
- C. The Village Board of Trustees may grant a waiver, at their sole discretion, where the property owner submits an acceptable written abatement plan that the Board determines is likely to prevent future violations.
- D. If the Village Board of Trustees accepts the abatement plan after meeting with the property owner, the property has no further violations for a period of six months following the acceptance of the abatement plan and the property owner abides by the terms of the abatement plan, then the points shall be waived and removed from the property's record as if the violation never occurred.
- E. To be eligible to apply for a waiver of nuisance points, no nuisance points shall have been assessed against a property during the preceding twelve months.
- F. In the event that nuisance points were assessed as the result of an appearance ticket that will also be adjudicated in a court of law, and that ticket is dismissed by a court of competent jurisdiction, then the nuisance points associated with that violation shall be waived. However, it is not necessary that a court of law find a property owner guilty of a criminal or civil offense for nuisance points to be assessed in accordance with this chapter.

§ 61-4 Adjudication Procedure

- A. Where the Village Board determines that a public nuisance may exist pursuant to the definition set forth in Section 61-1 of this chapter, then a hearing must be held to in order to determine whether the property was correctly assessed the Nuisance Points at issue.
- B. The Village Attorney shall serve a notice of hearing on the property owner, by either personal service, substituted service, service on the Secretary of State or otherwise pursuant to the Civil Practice Law and Rules, which notice shall include the following information:
 - 1. the name of the property owner;
 - 2. the address of the property at issue;
 - 3. a statement of each and every incident during the relevant period giving rise to nuisance points;
 - 4. the date, time and location of the hearing; and
 - 5. a statement that the failure to attend the hearing may constitute a default, which could result in the closure of the building or property and the suspension or revocation of the owner's municipal approvals necessary to operate a business on at the property.
- C. The hearing shall be conducted by a hearing officer appointed by the Village Board of Trustees. The Village shall be represented by the Village Attorney and the property owner may elect to be represented by an attorney if they so choose.
- D. The owner and other interested parties may present evidence and call witnesses on their behalf and may cross-examine any witnesses that testify for the Village. The rules of evidence prevailing in a court of law shall not apply to the hearing.
- E. The Village shall be required to prove by a preponderance of the evidence that each element of the charged offense has occurred in order to prove that a property constitutes a public nuisance.
- F. Defense of Innocence. An innocent party's interest in property shall not be forfeited. The party claiming innocence shall have the burden of proving innocence by a preponderance of the evidence. Such innocence may be demonstrated by proof that the party did all that reasonably could be expected under the circumstances to prevent the violation. For the purposes of this subsection, ways in which a person may show that he or she did all that reasonably could be expected may include demonstrating that such person, to the extent permitted by law, (i) gave timely notice to an appropriate law

enforcement agency of information that led the person to know that nuisance activity was occurring or would occur, and (ii) in a timely fashion revoked or made a good faith attempt to revoke permission for those engaging in such nuisance activity to use the property. However, a person shall not be required by this subparagraph to take steps that the person reasonably believes would be likely to subject any person to physical danger. Even where a party with an interest in the property establishes his or her innocence in accordance with this subsection, the Village may still impose any reasonable and legally permissible remedy to abate the nuisance so long as it does not infringe upon the innocent party's interest in the property.

- G. **Hearing Officer Report and Recommendation.** No later than fourteen business days after the conclusion of the hearing, the hearing officer shall render a written report and recommendation to the Village Board of Trustees, which shall set forth factual findings based upon evidence in the record and shall state whether a public nuisance was proven by a preponderance of the evidence. In the event that a public nuisance is so proven, the hearing officer shall also render a written recommendation as to the remedy to be imposed to abate the public nuisance.
- H. **Final Determination.** No later than thirty business days after receipt of the hearing officer's report and recommendation, the Village Board shall issue a final determination either accepting, modifying, or rejecting the hearing officer's report and recommendation. If the Village Board determines that there is a public nuisance, based on either the recommendation of the hearing officer or the Village Board's own assessment of the hearing record, the final determination shall articulate the remedy to be imposed and set forth a reasonable manner in which the remedy elected is expected to abate the public nuisance. No remedy shall be imposed that goes beyond the remedy or remedies previously specified in the Notice of Hearing. The final determination shall be served on all interested parties in the same manner as the Notice of Hearing.
- I. **Closure.** Where the final determination orders the closure of a building, business or use of the property, the closure shall become effective thirty calendar days after service of the final determination.
 - 1. In no event shall any closing ordered under this Section be for a period of more than one year;
 - 2. A closing directed by the Village Board pursuant to this Section shall not be deemed to constitute an act of possession, ownership or control by the Village of the closed premises;
 - 3. It shall be a violation of this Section for any person to permit any other person to use or occupy any building or property ordered closed by the Village Board. Such a violation shall be punishable by a fine of not more than \$250 or by imprisonment not exceeding fifteen calendar days, or both.

Full Environmental Assessment Form
Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

See attached resolution

Determination of Significance - Type 1 and Unlisted Actions

SEQR Status: Type 1 Unlisted

Identify portions of EAF completed for this Project: Part 1 Part 2 Part 3

Upon review of the information recorded on this EAF, as noted, plus this additional support information

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the _____ as lead agency that:

A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).

C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

Part 2 - Identification of Potential Project Impacts

Agency Use Only [If applicable]

Project :
 Date :

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.
