BOROUGH OF ALPHA

AN ORDINANCE TO AMEND CHAPTER 403 – WATER AND SEWERS

OF THE CODE OF THE BOROUGH OF ALPHA

BE IT ORDAINED, by the Borough Council of the Borough of Alpha, that the following amendments shall be and are herewith enacted to Chapter 403 – WATER AND SEWERS of the Code of the Borough of Alpha:

*** § 403-3 Inclusion of rules as part of contract; definitions.

B.

As used in this article, the following terms shall have the meanings indicated:

CURB STOP

The first stopcock or valve encountered from the main running toward the property (owner), in essence the closest to the water main provided by the Department of Public Works, on the service side of the curb line, installed for the purposes of shutting off water supplied to a customer.

*** § 403-5 Maintenance of pipes and fixtures; notice to repair or replace.

A.

All persons using water shall keep their pipes and fixtures within their premises, together with the service pipe to the curb stop as defined in § 403-3(B), in good repair and protect the same from frost at their own expense. If the owner of any premises shall neglect or refuse to repair a leak within three days, exclusive of Sundays and legal holidays, after receipt of written notice from the Director directing such repairs, the water supply for such premises shall be shut off at the main or at the curb, and service shall not be resumed for such premises until after all repairs ordered have been made and the fee, as set forth in § 403-21B, has been paid.

B.

Additionally, the Borough shall have the right to replace a consumer's service line from the curb stop as defined in § 403-3(B) to the water meter, or any portion thereof, and bill him/her according to the fee schedule set forth in § 403-21B, under any of the following circumstances:

(1) The service pipe is constructed of a material not listed in § 403-23. (2)

The service pipe is declared unreliable by the Director due to prior adverse experience. (3)

The curb stop as defined in § 403-3(B) is deemed unserviceable due to its location. (4)

The service pipe, due to its age and material of construction, fails during system maintenance.
