REQUIRED LEVEL II ARC REVIEW SUBMITTALS / CHECKLIST

Assuming the property is zoning compliant and there are no other outstanding issues, below please find the general Architectural Review Commission (“ARC”) checklist (*please verify requirements for each project as it may require more or less depending on the scope of the project*):

[Please make sure your submittals are collated into packets & folded prior to submittal to Village Staff.]

All submittals below require submittal of TEN (10) hard copy sets (at least 11” x 17” in size) and one (1) digital copy (via PDF) set of plans to the staff member working on the project. [Some of these items may not be required, and may be waived in writing by the Village Manager.]

Submitted	Submittal Documentation Required ¹
	Level II ARC Application
	Brief Description of Improvements (Paragraph or more describing the details of your project)
	Floor Area Ratio calculation sheet (document is attached to the application)
	Zoning Data Table
	Pictures of all 4 sides of the property (to be able to see the existing conditions that exist for this project)
	Site Plan / Survey (illustrating details of improvements)
	Landscape Plan (If landscaping is proposed/required as part of project. Make sure to include the following pieces of the plan at the very least: Tree Inventory, Opacity Chart, Tree Preservation Plan)
	Detailed Colored Building / Structure Plans (Building Elevations / Structure Elevations) & Specifications and/or drawings for any accessory structures

DEFINITIONS

Per Section 260-1226 of the [Bannockburn Zoning Ordinance](https://ecode360.com/28494017) [https://ecode360.com/28494017]

^v **Gross Floor Area** is defined as “The sum of the gross horizontal areas of all floors of a building or of such area thereof devoted to a specific use, measured from the exterior face of exterior walls or from the center line of walls separating two buildings or uses. Gross floor area shall include areas such as basement floors; elevator shafts and stairwells at each floor; floor spaces and shafts used for mechanical, electrical, and plumbing equipment; penthouses; attic floors; interior balconies and mezzanines; atria; enclosed porches and floor space used for accessory uses. Gross floor area shall also include floor area devoted to parking garages and structures, but not parking lots. No floor area devoted to a public water storage facility shall be included in gross floor area. Where any space has a floor to ceiling height of more than 14 feet, each 14 feet of height or fraction thereof shall be treated as a separate floor; provided, however, that such ceiling height limitation of fourteen (14) feet shall not apply to warehousing or storage areas within a business headquarters planned unit development.”

^{vi} **Basement** is defined as “A portion of a structure located partly underground having an average ceiling height above grade of more than 2 feet but less than 6 feet.”

^{vii} **Lot Area** is defined as “The total land and water area included within lot lines, excluding, however, land areas subject to easements for public or private access or egress.”

^{viii} **Floor Area Ratio (FAR)** is defined as “The gross floor area of a building divided by the total lot area of the zoning lot on which it is located. For planned developments, the FAR shall be determined by dividing the gross floor area of all principal buildings by the net area of the site.”
