

ZONING

235 Attachment 2
Town of Easton

Appendix B
Dimensional and Density Regulations

No building or structure shall be built or shall any existing building or structure be enlarged except in conformance with the regulations of the Easton Zoning By-law as to lot coverage, lot area per dwelling unit, lot width, front, side and rear yards, and maximum height of structures, in the districts as set forth below except as may otherwise be provided elsewhere in the Easton Zoning By-law.

Except in the Queset Commercial District, if more than one building (other than a one, two or three-car garage, a tool-shed, a greenhouse or a cabana) may lawfully be placed on any lot in single or common ownership, the distance between the nearest parts of such buildings shall be not less than 40 feet.

DIMENSIONAL AND DENSITY REGULATIONS TABLE

Zoning District	Minimum Lot Size in Sq. Ft.	Continuous Minimum Lot Frontage in Lin. Ft. (2)	Minimum Yard Depth in Ft. (2)			Minimum Lot Depth in Ft.	Maximum Building Height in Ft. EASTON TOWN CODE

The above notes for apartments and motels and are not to be construed as separate zones.

- (1) Restrictive Use.
- (2) On lots abutting streets on more than one side, the front yard requirements shall apply to each of the abutting streets.
- (3) These height restrictions shall not apply to chimneys, water towers, skylights and other necessary features appurtenant to buildings which are usually carried above roofs and are not used for human occupancy.
- (4) Deleted in its entirety at Adjourned Annual Town Meeting April 9, 1985.
- (5) This restriction does not apply to above-ground swimming pools.
- (6) Apartments — See § 235-40 for requirements.
- (7) No restriction.
- (8) Permit from the Planning & Zoning Board.
- (9) No industry which produces dust, fumes, smoke, odors, noise, or pollutants of any type shall in the future be constructed or placed on a parcel of land in the industrial zone within five hundred (500) feet of any church, school or dwelling, existing or in the process of being erected at the time of adoption of this chapter.
- (10) Where present buildings on adjoining lots are less than 25 feet from the front lot lines, new buildings may be placed as near the way as the average of the buildings on said adjoining lots. A vacant lot shall, for this purpose, be treated as so occupied by a building set back 25 feet.
- (11) (Reserved)
- (12) Continuous minimum Lot Width shall require that each RESIDENTIAL LOT shall have 150 feet of frontage width, and at least 100 feet of horizontal distance between the side lot lines at the minimum front yard depth of 100 feet for residential lots.
- (13) Continuous minimum Lot Width shall require that each BUSINESS LOT shall have 150 feet of frontage width, and at least 100 feet of horizontal distance between the side lot lines at the minimum front yard depth of 125 feet for business lots.
- (14) Continuous minimum Lot Width shall require that each INDUSTRIAL LOT shall have 150 feet of frontage width, and at least 100 feet of horizontal distance between the side lot lines at the minimum.
- (15) Height
 - One foot may be added to the Maximum Building Height for each additional foot by which (i) the front setback exceeds the minimum front setback distance) or (ii) the narrower side setback exceeds the minimum side setback distance, whichever of these two distances is the smallest; provided the height shall not in any case exceed 35 feet.
 - In situations where a building is allowed to be closer to a property line one foot shall be deducted from the Maximum Allowable Building Height for each foot by which (i) the front setback is less than the minimum front setback distance or (ii) the narrower side setback is less than the minimum side setback distance, whichever of these two distances is the greatest. This reduction in Maximum Height shall apply only to the portions of the building that occupy the space between the property line and the corresponding setback line.

In instances where a building has a walk out basement located on the rear wall the grade plane shall be calculated using the mean grade from all front and side walls.

ZONING

- (16) Minimum front yard depth of less than 50 feet may be granted via Special Permit by the Planning and Zoning Board. Waivers of this minimum requirement will only be granted when the applicant demonstrates the proposed front yard depth is consistent with good and consistent planning practices; closely matches the setbacks of the surrounding area and will not have a negative impact on adjacent properties.
- (17) At least 50% of the open space shall be landscaped open space in front of or beside the principal building on the lot, visible from the public way. In Queset A, pedestrian plaza or other pedestrian amenities located in front of the building may be counted toward the minimum open space requirement, subject to approval by the Planning Board.
- (18) In Queset A up to four stories and/or 60' may be allowed through design review. The facade length of any 4th story is limited to 60% of the ground floor facade length.
- (19) With shared access and shared parking; otherwise, 40,000 sq.
- (20) In the Village Business District, the Planning and Zoning Board may, in conjunction with any site plan review proceeding as may be required under § 235-57, require larger setbacks, decreased height or decreased lot coverage if such modified dimensions are warranted by existing conditions and/or the nature and location of existing buildings on abutting lots; or if such modified dimensions are necessary to ensure that there will be no detriment to the surrounding neighborhood.
