Langlois – agrees with combining, however more of the Sidewalk Ordinance needs to be incorporated into the Safety Path Ordinance.

The Board heard public comment from:
Dean Watson – 5763 Wellwood Dr.

2. Section 2 - Purpose

The Board held a discussion regarding this agenda item with the following comments:

The Board heard public comment from:
Libby Dwyer – Chairman, Safety Path and Trails Committee
Dean Watson – 5763 Wellwood Dr.
Ron Hein – 5859 Murfield Dr.

3. Section 3 - Definitions

The Board held a discussion regarding this agenda item with the following comments:

Jeanne Langlois – under the term *Safety Path Plan*, the Safety Path and Trails never undertook the task of creating an official map to be used for these purposes. The maps created by the SPTC are vision maps. Recommends requesting this of the SPTC with final approval by the Board. The current map needs to be reviewed contemplating liability with the paths.

Frank Ferriolo - disagreed with Langlois. The Board recently approved a Master Plan for Safety Path and Trails which included current paths.

He further commented that under the term *Sidewalk and Safety Path/Trails*, that Path and Trails should be split so that trails is a separate idea.

Lastly under *Sidewalk and Safety Path/Trails*, he suggested under #1 after ... *that such pathways....*, the following be inserted: "located on the outer perimeter of a subdivision adjacent to a public road".

Robin Buxar – suggested that Ferriolo's comments are too restrictive. Safety paths are not necessarily just outside of a subdivision.

Jeanne Langlois – suggests the Township Attorney to take a closer look at this section.

The Board heard public comment from:

Ron Hein – 5859 Murfield Dr.

Libby Dwyer – Chairman, Safety Path and Trails Committee

John Markel – 245 Birch Hill Dr.

4. Section 4 – Safety Path Development

The Board held a discussion regarding this agenda item with the following comments:

Jeanne Langlois – suggested that the first paragraph under *Safety Path Development*, refers to an *Advisory Committee*; this should be changed to reflect the Safety Path and Trails Committee.

The Board heard public comment from:

Dean Watson – 5763 Wellwood Dr.

5. Section 5 – Safety Path Implementation/Developer's Responsibilities

The Board held a discussion regarding this agenda item with the following comments:

Jeanne Langlois – she stated under Item A.; this is inconsistent with earlier paragraphs, the Township Attorney needs to review with earlier language comments.

John Giannangeli – under Item B.; "*In lieu of constructing the pathway, and only with the recommendation of the Planning Commission*", suggested that "*and only with the recommendation*" be removed and to read "... with the review of the Planning Commission".

The Board heard public comment from:

John Markel – 245 Birch Hill Dr.

Ron Hein – 5859 Murfield Dr.

6. Section 6 – Safety Path Construction Standards

The Board held a discussion regarding this agenda item with the following comments:

Frank Ferriolo – under Item B.; it states “...*ten (10) feet in width...*” in Exhibit 1, Design Types it states eight feet. It needs to be consistent.

Also within Item B.; considering repairs, should the term “grandfathering” be appropriate?

The Board heard public comment from:

Libby Dwyer – Chairman, Safety Path and Trails Committee

Ron Hein – 5859 Murfield Dr.

John Markel – 245 Birch Hill Dr.

Dean Watson – 5763 Wellwood Dr.

7. Section 7 – Safety Path Maintenance and Repair

The Board held a discussion regarding this agenda item with the following comments:

Frank Ferriolo – in Subsection IV. – regarding civil infraction, he suggests that only be used under the circumstance of malicious intent. Suggests that under normal circumstances that it be similar to the current Sidewalk standards.

He further questioned under Item F. – he suggested removing five percent (5%).

Libby Dwyer – Chairman, Safety Path and Trails Committee

10. Prohibition of Obstruction of Sidewalks and Safety Paths

The Board held a discussion regarding this agenda item with the following comments:
